FADHULLAH ZUHAIR BIN LEMAN

IT SYSTEMS SUPPORT | AUTOMATION & INTEGRATION
TECHNICAL OPERATIONS | SOFTWARE QUALITY

Kepong, Kuala Lumpur | +60 11-3123 6955
fadhullahzuhair@gmail.com

PROFESSIONAL PROFILE

Technology Management graduate (2026) with hands-on project experience in application integration, functional testing, troubleshooting and database-backed systems. Built a WhatsApp AI automation MVP using n8n, WAHA, OpenAI and Docker, alongside a Flutter/Supabase monitoring application. Seeking an entry-level role in semiconductor or high-tech manufacturing environments, particularly in IT support, systems integration, automation, technical operations or software QA.

TECHNICAL SKILLS & TOOLS

Systems & integration REST APIs, webhooks, workflow mapping, n8n, WAHA, OpenAI API integration, Docker

Software & data Flutter, Supabase, database CRUD operations, role-based interfaces, threshold alerts

Testing & support functional test scenarios, workflow debugging, issue investigation, user feedback, structured reporting

Business & quality Microsoft 365; foundational exposure to Power BI, SAP ERP, Quality Engineering and Six Sigma

SELECTED TECHNICAL PROJECTS

MESRAMED | WhatsApp AI Automation MVP — 2026

Applied project for clinic customer-service workflow automation

- Designed a workflow connecting WhatsApp, WAHA, n8n and OpenAI through webhooks for automated customer enquiries.
- Structured bilingual FAQ responses, service navigation and staff handover logic around clinic requirements and operating policies.
- Tested dialogue flows and response behavior; revised wording, escalation controls and workflow logic using staff feedback.
- Investigated and resolved webhook-path conflicts, helping stabilize message routing and workflow execution.
- Used Docker and prepared application-data and WhatsApp-session backups for migration to a clinic workstation.

ONCOTRACK | Real-Time Monitoring Application — 2025

Software development project using Flutter and Supabase

- Developed a multi-role Flutter monitoring application with a Supabase backend and create/read/update/delete (CRUD) data operations.
- Implemented role-based dashboards and threshold-triggered alerts to present monitoring information to different users.

FADHULLAH ZUHAIR BIN LEMAN

EXPERIENCE | TECHNICAL EVIDENCE | INDUSTRY READINESS

PROFESSIONAL EXPERIENCE

DIGITAL CONTENT STRATEGIST / CLINIC DIGITAL CONTENT CREATOR (PART-TIME)

Klinik MesraMed (formerly Klinik Mediviron Seksyen 7 Bangi) | Jul 2024 – Present

- Monitored digital content performance and engagement metrics; summarized findings to inform clinic communication priorities.
- Coordinated publishing tasks, service information and content requirements in an operating healthcare business.
- Worked with staff feedback and changing service information, developing a practical understanding of accuracy, process consistency and stakeholder communication.

TECHNICAL OPERATIONS & QUALITY: EVIDENCE OF TRANSFERABLE SKILLS

Transferable capabilities demonstrated through software projects and academic work relevant to structured technical operations.

Integration & interfaces	Connected services using webhook-driven workflows, APIs and Docker-based applications in the MesraMed MVP.
Technical problem-solving	Investigated webhook-routing conflicts and refined automation behavior during testing.
Testing & validation	Checked response flows, bilingual service logic and staff escalation behavior against clinic requirements.
Application data	Built multi-role functionality, Supabase CRUD operations and monitoring dashboards for ONCOTRACK.
Operational continuity	Prepared application data and session backups to support workstation migration of the chatbot environment.

EDUCATION & ACADEMIC FOUNDATION

BACHELOR OF TECHNOLOGY MANAGEMENT WITH HONOURS

Universiti Kuala Lumpur Malaysia Italy Design Institute (UniKL MIDI) | Mar 2023 – Jul 2026

Relevant coursework and its practical relevance:

Quality Engineering & Six Sigma academic foundation in quality thinking, process variation and structured improvement.

ERP & Database Management foundation in business information systems and organized data processes.

Project Management & Information Technology foundation in planning, requirements, system delivery and coordination.

AI in Business context for applying digital technologies and automation in operational settings.

CAREER INTERESTS & ADDITIONAL INFORMATION

Target entry-level roles Application Support, IT Operations, Junior Systems Integration / Automation, Software QA, Manufacturing IT Support.

Languages Bahasa Malaysia (native); English (fluent).
